Apps for Business: Operations

See how iPad can be used for everyday tasks. Stay on top of projects wherever you are. With iPad and off-the-shelf apps from the App Store, you're able to update your projects at a moment's notice. Capture meeting notes, to-dos, task details, and more. With iPad it's easy to meet your milestones and stay on track. Make faster decisions in real time with apps that transform your operations data into visually rich graphs and charts
